

My name is Tara Tesoriero and I own my home at 5 Gault Park Drive in Westport, CT.

I am against this proposed bill because it will hurt Connecticut. Quiet neighborhoods will be ruined and property values will decline, ultimately hurting CT revenues that fund our amazing social programs. Consequently families will be reluctant to buy homes in CT since a condo can be built in any random location. Finally, mass transit will be harmed as traffic builds up near train stations which will be a deterrent to use mass transit. This would, in turn, contribute to global warming as people will just drive cars more. This bill is very short-sighted and will do much more harm to our state. Please do not support this proposed bill.

Thank you, Tara Tesoriero
